BACHELOR’S DEGREE EDUCATION in PHYSIOTHERAPY

= Balneology, physical therapy and medical rehabilitation
If life is a journey, then education is the ticket - this is our credo and the manner in which we quantify the importance of education at Grigore T. Popa University of Medicine and Pharmacy of Iasi, a medical higher education institution with over 135 years of tradition.

Viorel Scripcariu, MD, PhD,
Rector of The “Grigore T. Popa” University of Medicine and Pharmacy of Iasi, Romania

The Grigore T. Popa University of Medicine and Pharmacy of Iasi is the only one medical university included in the Times Higher Education World University Rankings.

Currently, the university has over 10,000 students of which 2,500 are international students from over 60 countries.
Why PHYSIOTHERAPY?

Physiotherapists: independent and autonomous professionals with the knowledge, skills and competences, prepared to have a key role in health systems taking their own decisions.

Physio-kinesiotherapy provides services to individuals and populations in circumstances where movement and function are, or may be, threatened by ageing, injury, pain, diseases, disorders, conditions or environmental factors.
Physio-kinesiotherapy promotes the active participation in society through the development, maintenance and restoration of health, movement capacity, physical activity and functional ability throughout the lifespan.

The physio-kinesiotherapist
- diagnoses the functional problems;
- provides treatment, assisting the person to restore movement and/or avoid injuring themselves further;
- seeks input from other health professionals if required;
- helps the person to achieve the best possible recovery, activity and quality of life.
Where physio-kinesiotherapist works?

- Hospitals;
- Health centres;
- Rehabilitation centres;
- Private practice;
- Schools;
- Occupational health and safety roles at workplaces.
Bachelor in **PHYSIOTHERAPY**

- 3 years undergraduate degree, 180 credits
- Curriculum designed to develop professional competencies
- Clinical education across diverse areas of practice
